

Dear Contestants,

Attached is a map of the Norris Penrose Event Center with three different designated parking areas. Please note there is an event taking place in the indoor event center that will use some of the parking availability, as well as the majority of the RV hookups.

For the parking area shown in white please park as far west as possible with the trailers going West-East when parked. This will allow for the most number of trailers and easy of getting out.

The second parking area is the blue area on the North Side of the arena. Please park as far west as possible with the trailers going West-East when parked. This will allow for the most number of trailers and easy of getting out. Please note only half of this parking lot is available for contestants.

The third parking area shown in red is also available for parking. It is across Lower Gold Camp Rd but there is about 10 acres of space and plenty of room for trailers.

Thank you for your cooperation!

Trailer Parking 06/30
